Three thoughtful sightseeing days

The Eiffel Tower and Seine; the Louvre and historic centre; Montmartre with an optional Marais afternoon. Each day has a clear priority and a natural place to stop.

Practical decisions made easier

Choose your neighbourhood, compare transport tickets, organise reservations and build a budget around your own trip. Official links help you verify details for your dates.

Designed for independent first-time visitors

Use the guide as a starting point, then adapt it to your interests and energy. It assumes three full sightseeing days, with arrival and departure outside them.

Day 1: the tower and the river.

Morning

Start with the Trocadéro view, then walk towards your booked Eiffel Tower entrance. If your entry is early, save the viewpoint for afterwards.

After your visit

Have a proper lunch before deciding on a short Seine walk. Leave the Arc de Triomphe as a separate optional outing by transport.

From the full guide

Keep the tower reservation as the day's anchor. Drop extra viewpoints before sacrificing a rest. The full kit includes route links, visit choices and a practical ticket checklist.

Day 2 / Louvre and historic Paris

Choose a focused museum route, pause for lunch, then continue towards Pont Neuf and Notre-Dame. The full guide explains how to avoid unnecessary backtracking and how to plan around the Louvre's Tuesday closure.

Day 3 / Montmartre

Give Sacré-Cœur and the village streets a relaxed morning. Choose an easy afternoon nearby or a transport transfer to the Marais. The guide flags hills, stairs and optional climbs.

Built-in flexibility

Shorter-trip suggestions, rain alternatives, access considerations and a clear distinction between essential and optional stops help you keep the trip comfortable.

A few details worth getting right.

Sample booking checklist

- [] Confirm date, time and visitor names.
- [] Check the exact ticket inclusions and eligibility.
- [] Read entrance and cancellation instructions.
- [] Save the confirmation and QR code offline.

Transport that fits your itinerary

The full guide distinguishes city tickets from airport products and includes a simple pay-as-you-go versus pass comparison. All quoted fares carry an October 2026 research date and official links.

An editable budget, not a fixed spending promise

Enter your accommodation, meals, attractions and transport. The XLSX workbook calculates entered subtotals, a reserve, total planned spending and the amount still to fund after prepayments.

Tools for the journey

Print the one-page itinerary, write in your actual reservation times and use the guide's clickable maps while connected. Download the PDFs before departure to read them offline.

A useful travel kit should help you make decisions, not simply list attractions. This preview shows the format; the full guide contains the complete routes and practical pages.

Your first Paris trip, thoughtfully planned.
